Nevada Power Quarterly Electric Base Tariff Energy Rate Change

Effective **January 1, 2008**, Nevada Power Company is adjusting its Base Tariff Energy Rate (BTER) to reflect decreases in energy or purchased power costs the company pays on behalf of its customers. This change will result in a revenue decrease of \$26,551,348. Increases or decreases are passed on dollar-for-dollar, with no profit to the company.

The company makes quarterly BTER filings on November 15, February 15, May 15 and August 15. These adjustments become effective 45 days from the date of filing. Once each year the Public Utilities Commission of Nevada (PUCN) undertakes a full review of these quarterly filings to ensure all adjustments were made in accordance with PUCN regulations.

For additional information, please call Nevada Power's customer service at the number listed on your bill. To view Electric Tariffs online, visit the Nevada Power website at: nevadapower.com/rates/tariffs.

The chart below reflects the adjustment for the average monthly bill for each customer class. Actual changes to individual customers' bills will vary depending on the level of consumption.
